

We understand that you are having an issue with the Hotel and Resort Card web site.

We have tested our site and it works fine. Please clear the history in your browser and reboot your device. If you are on a smart phone try turning it off and back on.

If you are trying to make a reservation on GOOGLE it will not work. GOOGLE is a search engine not a Browser, we recommend Browsers; Firefox, Chrome, Safari, Windows, etc.

If that does not work below are some sites that can help trouble shoot your problem.

1. <https://www.google.com/search?client=safari&rls=en&q=browser+not+responding&ie=UTF-8&oe=UTF-8>
2. <https://appletoolbox.com/2017/01/iphone-will-not-access-certain-sites/>
3. <http://www.idownloadblog.com/2017/01/23/websites-not-loading-in-safari/>
